BISAZZA

BAGNO

The Wanders Collection

Bisazza Bagno presenta "The Wanders Collection", una linea di complementi di arredo bagno firmata da Marcel Wanders.

"La collezione deriva il suo concept originario da una mia fantasia, fare il bagno immerso in una saponetta: l'apoteosi del pulito! Ho tenuto dentro di me quest'idea per molto tempo, fino a quando Bisazza non mi ha aiutato a realizzarla. La collezione è poi cresciuta e si è articolata in tre diverse linee, ognuna con una sua estetica ben definita, dall'antico fino all'architettura costruttiva. L'idea di presentare diverse epoche in un'unica collezione deriva da un mio credo: le persone hanno due spinte contrapposte al loro interno, una verso una dimensione eterna dove le cose durano nel tempo; l'altra verso il cambiamento. Nel mio design oscillo e mi muovo tra questi due poli, l'antico e il nuovo, la rassicurazione e l'innovazione. Credo che sia una risposta ad un sentimento molto umano. The Wanders Collection riflette appunto questo dualismo."

Marcel Wanders

Bisazza Bagno presents "The Wanders Collection", a bathroom furniture line designed by Marcel Wanders.

"The original concept for the collection came from a fantasy I had of taking a bath in a bar of soap. The ultimate clean! This idea I held for a long time, before Bisazza helped me realize it. The collection then grew to consist of three components, each with a different aesthetic ranging from new antiques to constructive architecture. This idea to present multiple eras in a single collection comes from my belief that people have two forces inside them: one imagines an eternity where they want things to last and the other edges towards change. I move between these ideas of ancient and new, comfort and novelty. I believe it is very human to do so and so the collection reflects this mentality."
