

#### ABOUT TRICORD WEAVE

Tricord® is a unique combination of synthetic fibres that have good strength, abrasion resistance and are resistant to water, frost, heat, mould and mildew. As our furniture is handwoven, no two pieces are ever alike. This unique craft appearance is part and parcel of the charm of the product.

#### BEFORE FIRST USE

We recommend treating the weave with **Textile Protector** (1) which will apply an invisible, dirt and water repellent film (see paragraph Protecting).

#### GENERAL GUIDELINES

- Cleaning should be done preferably during cloudy weather or in the shade. Make sure your furniture is cooled down before you start.
- Beware of sensitive flooring and wear protective gloves.
- Do not use any abrasive sponges, steel brushes, wonder sponge or any abrasive/caustic cleaner.
- Do not use a high pressure cleaner nor a steamer.
- Make sure your furniture is clean and completely dry before you apply protective products.
- Storage during winter time or long absence: before storing, we recommend good cleaning and protection of your furniture. Store only in a dry, unheated and well-ventilated room and never use non-breathable plastic covers. Tribù offers custom-fit protective covers. Contact your dealer for more info.

#### RECOMMENDED PRODUCTS

1. Textile Protector
2. Synthetics Super Cleaner

**CLEANING**

- Always clean the frame of your furniture first before you clean the weave.
- If the weave is treated regularly with Textile Protector, an easy wash with pH neutral soapy water using a soft hand brush will be sufficient. Always rinse with plenty of water.
- If the weave is heavily soiled, we advise using **Synthetics Super Cleaner (2)**.
- Mist the weave with some clean tap water, for example with a plant sprayer.
- Spray the Synthetics Super Cleaner with one smooth movement in all directions onto the weave and let the cleaning agent soak for 1-2 minutes. Make sure the weave stays moist to keep the cleaner active.
- Gently brush the weave with a soft hand brush and let the cleaner soak for another minute.
- Finally rinse the furniture well with clean tap water and remove excess water with a clean microfiber cloth. Let the furniture dry in the open air.

**PROTECTING**

- Applying Textile Protector regularly will make cleaning easier. Furthermore, the weave will dry quicker.
- Shake the aerosol well and spray onto the surface in all directions. For open weaves, it is better to spray the product onto a clean microfiber cloth.
- Gently wipe the Textile Protector onto the weave.
- Let the weave dry in the open air.
