La cucina protagonista dei lifestyle dell'attualità: proposte differenti per interpretare concezioni diverse dell'abitare, dalla massima flessibilità compositiva alla più ampia libertà di definizione estetica. Una collezione sempre in linea con le tendenze più nuove, fra soluzioni progettuali e dettagli tecnici, per dare forma ad un ambiente che riflette l'unicità di chi lo vive ogni giorno. La cucina diventa componente di un progetto d'arredo totale, completo e coerente, in piena continuità con il concetto di home project che contraddistingue tutte le proposte della collezione Poliform. The kitchen is protagonist of nowadays lifestyles: the different models enable to interpret different conceptions of living thanks to the utmost planning flexibility and the ample choice of finishings. The collection is always updated to the latest trends, with design solutions and technical details that give life to a unique home shaped on daily life. The kitchen becomes part of a total interior project in full continuity and coherence with the concept of home project distinguishing the collection Poliform.

Wall units PR19 with bronze painted aluminium frame and bronzed reflecting glass doors with integrated lighted handle profile. Varenna personalised hood Glass in black frosted glass.

minimal,

In questa pagina: due dettagli della colonna a giorno in finitura rovere spessart, caratterizzata dai profili e dai ripiani in metallo laccato goffrato nero. Cesti estraibili in midollino. Sgabello Ics rovere spessart. La colonna a giorno è un elemento progettuale disponibile in tre altezze, che introduce nella collezione Varenna l'idea di mobile custom made in cui si sommano sottili citazioni di memoria, come i portacalici e i cesti in midollino.

This page: two details of the open tall unit in spessart oak distinguished by the profiles and the shelves in black embossed lacquered metal. Ics stool in spessart oak. The open tall unit is available in three heights and is distinguished by subtle details, like the glass holders and the wicker baskets that introduce the idea of the custom made furniture in the collection Varenna.

Guida alla varietà della collezione Varenna, fra le infinite possibilità di interpretazione stilistica e la ricerca della massima funzionalità in cucina. Le caratteristiche distintive di ogni modello, le finiture delle ante, i materiali e i colori: alle variabili estetiche si affiancano le soluzioni sempre più versatili per i contenitori, le possibilità delle attrezzature, la scelta dei componenti e degli elettrodomestici. Tutte le informazioni per approfondire il progetto della tua cucina.

A guide to the variety of the collection Varenna, in order to discover the endless possibilities of style and the research for maximum functionality in the kitchen. The distinctive features of each model, the door finishings, the materials and the colours: along with the wide choice of models you will find the most versatile solutions for the cabinets, the equipments, the choice of the components and the appliances. Useful information to create the project of your kitchen.

La cucina Artex è caratterizzata dalle ante di spessore 26 mm nelle versioni liscia o a doghe, con il lato maniglia sagomato. E inoltre disponibile il piano con bordo rastremato di spessore 20 mm.

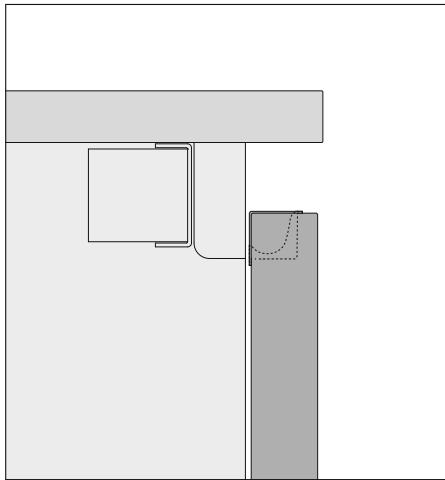

Finiture anta:
Laminato opaco bordo tuttocolore
Laccato goffrato 33 colori
Rovere laccato opaco a poro aperto in 33 colori
Laccato lucido 17 colori
8 essenze
DuPont Corian® glacier white
Acciaio scotch brite
Ante a vetrina telaio alluminio verniciato bronzato e vetro riflettente bronzato (disponibile solo per le ante dei pensili)

Nelle finiture laccato goffrato, rovere laccato opaco a poro aperto, essenza e DuPont Corian® l'anta è disponibile anche nella versione a doghe. Non è possibile accostare piani con bordo rastremato a piani con bordo squadrato.

Artex kitchen is distinguished by 26 mm thick doors in the version with carved lines or flat, with shaped upper edge. The worktop thickness 20 mm is available with tapered edge.

Door finishings:
Mat laminate with tuttocolore edge
Embossed lacquered 33 colours
Open pore mat lacquered oak 33 colours
Glossy lacquered 17 colours
8 woods
DuPont Corian® glacier white
Steel scotch brite
Glass doors with painted bronze aluminium frame and bronzed reflecting glass (available only for wall unit doors)

For the finishings embossed lacquer, mat lacquered oak with open pore, wood and DuPontCorian® the door is available also with carved lines. Worktops with tapered edge can not be used in combination with worktops with straight edge.

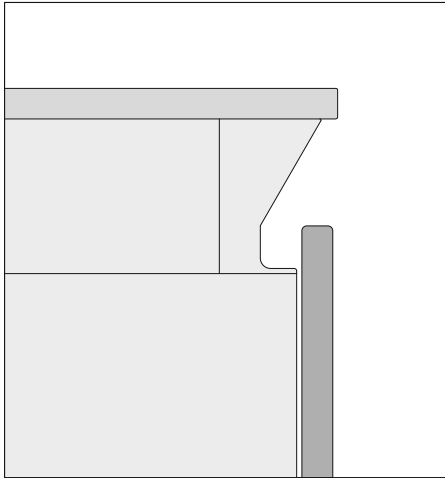

Le ante della cucina Matrix, spessore 26 mm, sono caratterizzate dall'esclusiva maniglia integrata in metallo verniciato.

Finiture anta:
Laccato goffrato 33 colori
Laccato lucido 17 colori
9 essenze
DuPont Corian® glacier white con maniglia integrata
Acciaio scotch brite
Ante a vetrina telaio alluminio verniciato bronzato e vetro riflettente bronzato (disponibile solo per le ante dei pensili)

The doors of Matrix kitchen, thickness 26 mm, are distinguished by the exclusive built-in handle in painted metal.

Door finishings:
Embossed lacquered 33 colours
Glossy lacquered 17 colours
9 woods

Open pore mat lacquered oak 33 colours
Glossy lacquered 17 colours
7 woods
Steel scotch brite
Glass doors with painted bronze aluminium frame and bronzed reflecting glass (available only for wall unit doors)

Una scelta estetica e funzionale. I piani di lavoro: elementi fondamentali nel look della cucina e, nello stesso tempo, componenti dal forte contenuto tecnico. Superfici operative che esplorano le caratteristiche funzionali di ogni materiale, con l'obiettivo della massima performance funzionale. Dalla naturalezza del legno e del marmo all'originalità del vetro, fino alle eccezionali prestazioni del DuPont Corian® e dell'acciaio: la collezione Varenna interpreta il top all'insegna della più ampia libertà, con 21 proposte tipologicamente diverse, dal minimo spessore di 12 mm ai 182 mm dei piani ispirati alle cucine professionali, per un totale di oltre 70 finiture. Una varietà in cui la ricerca della massima qualità è l'elemento comune a tutte le proposte: i top della collezione Varenna sono conformi alle severe normative europee sulla totale assenza di sostanze nocive e garantiscono la massima sicurezza ed affidabilità nel tempo, ottenendo i più alti risultati nei test di inattaccabilità e resistenza.

An aesthetic and functional choice. The worktops are fundamental elements of the look of the kitchen and very technical components at the same time. These operational surfaces explore every single characteristic of the materials with the goal of the best functional performance. From a natural material like wood and marble to the glass, up to the exceptional performances of DuPont Corian® and stainless steel: the collection Varenna gives the maximum choice for the worktop, from the thickness 12 mm up to the 182 mm inspired by professional kitchens, with a total of more than 70 finishes. A variety where the research for quality is the mutual element: the worktops of the Varenna collection are in accordance with strict European rules about the total absence of harmful substances and grant the maximum safety and reliability over time by obtaining the highest results in the resistance and impregnability tests.

La varietà tipologica. Il controllo dell'acqua fra originalità estetica e massima funzionalità: oltre 250 proposte di lavelli delle marche più prestigiose, per garantire soluzioni sempre esclusive e su misura per ogni esigenza, dalle configurazioni più semplici, monovasca, alle proposte dotate di due vasche e di gocciolatoio, fino all'ampia gamma di accessori che comprende taglieri scorrevoli in cristallo o legno e vaschette forate per facilitare il lavaggio di frutta e verdura. Tre le alternative per i materiali: acciaio, pietra e DuPont Corian®, materiali esteticamente diversi, che garantiscono massima funzionalità, igiene e affidabilità nel tempo. L'integrazione fra vasche e piani di lavoro prevede soluzioni diverse: la qualità estetica Varenna formula proposte ispirate alla massima essenzialità, con numerose possibilità di incasso. L'unione fra stile high tech e funzioni evolute si estende anche alla scelta dei miscelatori e dei relativi accessori, con più di 130 proposte differenti.

The variety of types. A functional and aesthetic original water control: more than 250 sink models of the most prestigious brands to grant exclusive and individual solutions, suitable to different needs. From the basic configuration with one basin, to the ones with two basins and drip. The wide range of accessories includes sliding chipboards in glass or wood and perforated trays for easy washing of fruits and vegetables. Among the options for the materials you can find extremely differentiated materials like steel, stone and DuPont Corian®, to grant the best functionality, hygiene and durability over time. The integration of basins and worktop foresees different solutions inspired by the aesthetic quality of Varenna and by an essential design with several installation types. The combination of high-tech style and advanced functions extends to the wide choice of taps and related accessories, with more than 130 different models.

piani cottura, hobs

Soluzioni personalizzate. Tecnologia all'avanguardia ed estetica esclusiva per il centro operativo della cucina: un'eccezionale varietà di proposte delle migliori aziende, per permettere ad ognuno di esprimersi al meglio. La ricerca della massima funzionalità si riflette nelle ampie possibilità offerte dai piani a gas: le tipologie dotate di griglie a filo del top consentono di spostare con maggiore facilità le pentole, assicurando un risultato estetico di qualità superiore. Piano cottura e top diventano un'unica superficie nelle soluzioni in acciaio, con possibilità di comandi frontali, e nell'esclusivo top Bimaterico™ in DuPont Corian® e acciaio, presentato nella foto in alto. Tecnologia innovativa e massima sicurezza per i piani ad induzione, che permettono di cuocere risparmiando tempo e riducendo i consumi, con in più la sicurezza della superficie del piano che rimane sempre fredda. Nuove possibilità, come le vasche multifunzione e le piastre Teppan Yaki per cucinare nello stile giapponese, riflettono la continua attenzione della collezione per l'evolversi degli stili di vita e delle abitudini.

Personalized solutions. Avant-garde technology and an exclusive aesthetics for the operational area of the kitchen: an exceptional variety of first class brands to better express the individual taste. The research of the maximum functionality reflects in the ample range of gas hobs: the models with flush griddle allow moving easily the pots in addition to a high-quality aesthetic result. Hob and worktop become a continuous surface with the steel worktops, with possibility of frontal controls, and with the exclusive worktop Bimaterico™ in DuPont Corian® and steel, presented in the picture above. Innovative technology and safety for the induction hobs that allow cooking saving time and reducing consumptions. In addition, you can work in total safety since the hob surface stays cold. New possibilities, like the multifunctional cooking hobs and the Teppan Yaki hobs for Japanese-style cooking, express the continuous care of the collection for the evolving lifestyles and habits.

cappe, hoods

Un'aspirazione efficiente. La gamma delle cappe garantisce la massima libertà progettuale, con un totale di oltre 50 modelli: dalle proposte personalizzate Varenna, che diventano vere protagoniste della cucina come la cappa Flat in acciaio e vetro presentata nella foto in alto, a soluzioni virtualmente invisibili, perfettamente integrate nei pensili. All'originalità estetica si affianca, come caratteristica comune a tutti i modelli, la massima affidabilità tecnica. Le cappe della collezione Varenna assicurano una capacità aspirante fino a 1000 m³ all'ora, in grado di purificare l'aria degli ambienti nel minor tempo possibile: per esempio, in una cucina di 3 metri per 3, una cappa Varenna in un'ora effettua 41 ricambi d'aria completi. La potenza aspirante si traduce nel massimo comfort, con alcuni modelli che garantiscono un picco sonoro di appena 61 dBA, persino inferiore ai 65 dBA che rappresentano lo standard internazionale di silenziosità degli elettrodomestici. Tutte le cappe personalizzate Varenna sono dotate di marchio CE, garanzia di massima sicurezza e affidabilità.

An efficient aspiration. The hoods range with more than 50 models grants a wide choice in the projects. The Varenna personalised hoods are real protagonists in the kitchen layout, like the hood Flat in steel and glass presented in the picture above, or almost invisible solutions completely integrated in the wall units. Further to the original aesthetics, every model offers the best technical reliability. The hoods of the collection Varenna grant an aspiration capacity up to 1000 m³ per hour, this enables to purify air in the kitchen in the shortest possible time: for instance, in a 3 metres kitchen, a hood Varenna makes 41 complete air changes. The aspiration power means maximum comfort, some models assure a sound peak of only 61 dBA, and this means less than the international standard of noise of electrical appliances 65 dBA. All the personalised hoods are CE certified, a guarantee of safety and reliability.

Funzionalità totale. Proposte che risolvono tutte le esigenze del contenere, assicurando la massima qualità estetica. Le colonne attrezzate rappresentano l'evoluzione funzionale della cucina contemporanea: superfici pure, di ampio respiro, in grado di valorizzare le qualità distintive delle finiture, dal legno ai colori laccati, e che una volta aperte rivelano un'eccezionale capienza e una versatilità di utilizzo senza limiti. Le aperture sono progettate per assicurare il totale accesso al vano interno: dalle ante a scomparsa, presentate nella foto in alto, che rappresentano la soluzione più innovativa, alle ante scorrevoli coplanari, fino alle ante battenti ad apertura totale. Le possibilità progettuali degli interni sono virtualmente infinite: dalle strutture estraibili, in cui i ripiani scorrono verso l'esterno per una maggiore facilità di utilizzo, ai vani che prevedono piani e cesti estraibili, cassetti interni e ripiani dotati di illuminazione, fino alla possibilità di incassare il frigorifero, il forno e la lavastoviglie, per una definizione estetica ispirata alla massima essenzialità.

Full functionality. Practical solutions for the daily needs that assure the best aesthetic result. The equipped tall units represent the evolution of the contemporary kitchen: clean and wide surfaces in different finishing, wood or lacquer, once opened reveal an exceptional capacity and an unlimited versatility. The openings are projected to assure the full access to the internal compartment: from the innovative retractable doors, presented in the picture above, to the coplanar sliding doors up to the leaf doors with full opening doors. The planning possibilities of the interiors are unlimited: extractable shelves for the best comfort of use, compartments with tops and pull-out baskets, inner drawers and lighted shelves, up to built-in refrigerators, ovens and dishwashers. The aesthetic result aims to the maximum essential design.

- TIPOLOGIE

 - _ struttura estraibile/extractable structure
 - _ cesti estraibili/pull-out baskets
 - _ serrandina/sliding shutter

L'evoluzione dell'ordine. Nuove possibilità per sfruttare al meglio tutti gli spazi della cucina, coniugando ordine, funzionalità e massimo comfort. La collezione Varenna si arricchisce continuamente di soluzioni all'avanguardia, pensate per garantire un'organizzazione sempre più razionale dei contenitori e assicurare una capacità operativa senza limiti. Un esempio sono i contenitori ad angolo, previsti sia per le basi che per le colonne, che diventano delle eccezionali risorse per contenere ogni genere di oggetti. I cestelli LeMans, presentati nella foto in alto, sono una delle proposte più evolute a disposizione della collezione: i cesti permettono di sfruttare al meglio l'interno, con una portata massima di ben 25 kg, e possono essere estratti completamente, con un semplice gesto, grazie ad un meccanismo dai movimenti ammortizzati. Tutte le attrezzature sono disponibili nella finitura cromata e cromo satinata.

The evolution of order. New possibilities to better use all the spaces in the kitchen, combining order, functionality and comfort. The Varenna collection is standing enriched by avant-garde solutions aimed to a more and more rational organization of the containers and assures an unlimited operational capability. The corner units are an example of this versatility, foreseen for both, base units and tall units: exceptional tools to contain all sorts of objects. The LeMans trays, presented in the picture above, are among the most evolved equipments available in the collection: the baskets allow to use the whole space inside the cabinet, they have a maximum carrying capacity of even 25 kg and can be fully pull out in a very simple way, thanks to a soft closing mechanism. All the equipments are available in the chromed and in the satin chrome finish.

interni cassetti, inner fittings for drawers

Proposte esclusive. Materiali diversi e soluzioni evolute garantiscono la più totale libertà di organizzazione dei cassetti. La collezione Varenna prevede quattro diverse finiture per l'attrezzatura interna: dalla linea in wengè e acciaio, presentata nella foto in alto, alla naturalezza di due soluzioni che vedono l'essenza protagonista assoluta, in finitura acero oppure noce canaletto, fino all'attrezzatura interamente in corian bianco, pensata per completare le proposte dallo stile più high-tech. Alla varietà estetica si affianca una completezza tipologica frutto di una continua attenzione per le esigenze reali e concrete della vita quotidiana in cucina: il risultato di questa ricerca è un'offerta in continuo ampliamento, che comprende vani portaposate, portacoltelli magnetici, contenitori dedicati alle spezie, bilance elettroniche, portapellicole, mattarelli, taglieri e accessori dedicati a tutte le funzioni specifiche della cucina contemporanea. Soluzioni modulari, liberamente componibili, per creare il proprio ordine personale.

Exclusive accessories. Different materials and evolved solutions grant the maximum flexibility in the drawers' partition. The collection Varenna includes four different finishings for the inner equipments: wenge and steel, presented in the picture above, the wood types maple or walnut canaletto, up to the accessories in white corian, to complete kitchens with a high-tech style. The aesthetic options are completed by the several types that are the result of the care for real needs of daily life in the kitchen: the continuous extension of the range offers now cutlery canteens, magnetic knife-racks, spices-racks, electronic scales, films holder, rolling pins, chopping boards and useful, functional accessories for the contemporary kitchen. Modular, composable solutions to create your own personal order.

interni estrattori, inner fittings for pull-out baskets

Contenitori evoluti. Tutte le potenzialità degli estrattori: soluzioni in linea con un'idea di massima versatilità, modularmente componibili per rispondere al meglio alle esigenze personali. L'ampia varietà di utilizzo degli estrattori trova riscontro nella completezza delle attrezzature della collezione Varenna. Nella composizione presentata in alto, il vano superiore è dotato di portaposate e portacoltelli. Il vano inferiore, che in questo caso ospita le pentole, può essere attrezzato con portapiatti a diametro variabile, in acciaio e legno o acciaio e corian. Dai kit divisori per organizzare al meglio lo spazio al cestello per il pane con interno in creta, fino alle piattae disponibili in due differenti tipologie d'utilizzo: una varietà di soluzioni che si aggiorna e si arricchisce continuamente di nuove idee e proposte. Al pari dei cassetti, anche le attrezzature per gli estrattori sono disponibili in quattro finiture: wengè e acciaio, acero, noce canaletto e corian bianco.

Evolved containers. All the potentials of the extractors: solutions of the maximum versatility thanks to the ample modularity, that better respond to individual needs. The ample variety of uses of the pull-out baskets is reflected in the completeness of the collection Varenna. In the picture above, the upper compartment is equipped with cutlery canteen. The lower compartment is used for pots but can be equipped with plate rack of variable diameter in steel and wood or steel and corian. From the partition kits to the bread basket with internal part in clay, up to the plate racks available in two different types: several options that are continuously updated with new ideas and solutions. Like the ones for the drawers, the equipments for extractors are available in four finishes, too: wenge and steel, maple, walnut canaletto and white corian.

- FINITURE INTERNI
FINISHINGS
- _ acero/maple
 - _ corian bianco/white corian
 - _ noce canaletto/walnut canaletto
 - _ wengè e acciaio/wenge and steel

Per un'integrazione completa. Gli angoli attrezzati: una possibilità compositiva che permette di inserire nel progetto della cucina i grandi elettrodomestici, come la lavatrice, con la garanzia di un risultato estetico perfetto.
Una soluzione evoluta, che consente inoltre di disporre di un angolo ripostiglio in cui celare alla vista gli attrezzi di pulizia e ogni altro genere di oggetto. Dotate di ante scorrevole, le colonne ripostiglio rappresentano una proposta innovativa per trasformare una situazione ad angolo in un vero e proprio contenitore dall'eccezionale capienza, che può essere attrezzato con ripiani e sistema di illuminazione.
Un'ulteriore conferma di come ogni elemento progettuale della collezione Varenna trovi la propria ispirazione nella risoluzione di esigenze concrete e reali, coniugando alte prestazioni funzionali e una concezione estetica definita dalla massima qualità.

*A complete integration. The equipped corner units: the planning versatility allows the integration of the big electrical appliances, like the washing machine, in the kitchen for a perfect aesthetic result.
The closet corner unit hides the cleaning tools and any other sort of object.
The closet tall units have a sliding door that turns the corner into a real container of the exceptional capacity that can be equipped with shelves and lighting system.
This is a further confirmation of how the Varenna collection is inspired by real and concrete situations which find a resolution in the high functional performances in addition to the best quality and design.*

La razionalità al servizio dell'ambiente. La raccolta differenziata resa semplice e funzionale; la collezione Varenna offre un'ampia varietà di proposte modulari per i portarifiuti, con soluzioni su misura per ogni nucleo familiare.
I contenitori ad estrazione totale e i kit Base System rappresentano la soluzione più semplice per le basi con ante battenti: previsti in composizioni da uno a tre secchi, sono caratterizzati da una struttura scorrevole che permette di accedere completamente ai singoli contenitori, assicurando massima pulizia e semplicità di utilizzo.
Un'eccezionale versatilità caratterizza le soluzioni per gli estrattori, come quella presentata nella foto in alto, con proposte che vanno da due a quattro contenitori per raccolta differenziata, completati da una serie di vaschette ideali per contenere le spugne, i sacchetti e i prodotti di pulizia.

*A rational service to the environment. The separate waste collection is made simple and functional: Varenna offers a wide choice of modular waste bins suitable for every household.
The bins with full extraction glides and the kits Base System are the simplest solution for base units with leaf doors: they are available with one or three buckets and are distinguished by a sliding structure that allows the full access to the single containers, granting neatness and simplicity in the use.
The exceptional versatility is the main feature of the models for extractors, like the one shown in the picture above, with the options of two till four containers for waste collection, completed by racks for sponges, bags and cleaners.*
